

Tuesday 30 June 2026

Dear neighbour,

Planned Manor Road closure to through traffic, 27th July to 5th October 2026

As part of our ongoing site stabilisation and enabling works, we wanted to provide advance notice of an upcoming closure planned for Manor Road.

From **Monday 27th July to Monday 5th October**, there will be a 24-hour closure of Manor Road for through traffic.

During the closure, a sign-posted diversion will be in effect via Woburn Road, the A421 and Ampthill Road. A map of this diversion has been included alongside this letter for information. The 2W bus route will also follow a diversion which will be advertised by Bedford Borough Council.

Rail services at Kempston Hardwick station will not be impacted by these works but access to the station will be maintained from the west side of Manor Road from the Woburn Road junction throughout the road closure.

We remain committed to being a good neighbour and we encourage you to sign up for digital updates via our website www.universalukproject.co.uk, which will contain details of upcoming site stabilisation, enabling and road improvement works. These updates can be found under our 'Community Updates' tab, so please check it regularly to ensure that you have the most up to date information.

Should you require any further support, you are also welcome to email us at any time at universalukproject@londoncommunications.co.uk.

Yours sincerely,

Universal Destinations & Experiences
